SEA SOLDIERS WIN FROM THE OCEAN MINERS

The marines put another scalp to their collection at the Camp Very grounds today (Thursday), the 194th Coast Artillery company turning in the "bean" after nine innings of various kinds of ball. With three changes in the firing line, the score-board disfigurement read, Marines 10, C. A. C. 1.

The large margin of the marines was not altogether due to poor support of the C. A. C. the outfield being noticeably bombed, and errors few in the home garden. Given a fair battery, the game would have been interesting to the Marines. Brewer and Cox for the Marine battery proved a puzzle too deep for the invaders, Brewer allowing only three hits and Cox registering five assists to the second station. The less said of the opposing batteries the better, three pairs being on the mats and were plentifully bombarded, fifteen hits in all, together with wisdom in taking the sack route, being responsible for the large score.

ALL HOPE GONE

Helpful Truths Every Man,
Young, Old, and Middle-
aged, Should Know
About Himself.

THE WONDERFUL PERSIAN NERVE ESSENCE.

Nothing can be more sad or trying than to see life slowly but surely ebbing away. It is a distress to the beholder as well as the victim. And yet to see thousands of such victims every day—weak, pallid, nervous men, who seem to have lost all interest in life and to have given up all hopes of being cured. Numerous causes lead to this decline of vitality. It is by no means unusual to see a man apparently full of health and vigor suddenly begin to decline without knowing why. The family doctor to whom he applies cannot tell the reason for the sudden change, and treats him for malaria, liver trouble, catarrh, or what not. He tries various medicines without relief. His life is slowly but perceptibly ebbing away.

BACK TO HEALTH.

Such cases excite our profound sympathy, because we know just what the trouble is. We extend to each one of these suffering men the right hand of fellowship, and ask the privilege of leading them back to health and happiness with our wonderful discovery—Persian Nerve Essence. It is meant to cure just what they are afflicted with, and will do it in every case without fail. What is life without health? Perhaps there are men fortunate enough to read our grand message, who are contemplating marriage, but who are all run down. Such men will receive invaluable benefit from Persian Nerve Essence, which will restore them to health and manly vigor in a very short time.

Persian Nerve Essence has brought happiness into thousands of homes and made marriage possible to men who had tried hundreds of other remedies without receiving any benefit. Just think what a little box of Persian Nerve Essence will do. Think of the untold happiness, the strength, the vigor and manhood that is chemically combined in our laboratory and put into those little pills, and which immediately act upon the system and produce their beneficial effects. Nothing in its medical science is so wonderful in its effects upon the human system as these little Oriental tablets known as Persian Nerve Essence.

A NEW MAN.

It brings the flush of health to the pale, wasted cheek, and imbues every step with bounding elasticity. It will bring back the fire and brilliancy to the lustreless eye and electrify the whole being. It acts upon the delicate tissues and builds up the shrunken parts. It makes a new man, fit to take his place in the world as a husband and as a father.

Persian Nerve Essence is a medicine that has restored the manhood and vigor to thousands of men—young, old and middle-aged. It positively cures all cases of nervousness, sleeplessness, impotency, wasting of parts, lost vigor, wakefulness, neurasthenia, despondency and nervous prostration. Get a box and become a new man.

One box will do you a great deal of good, but six will completely cure you. Persian Nerve Essence comes in a convenient tablet form, and it is carefully compounded from purely vegetable ingredients, and contains no mercury or other injurious drugs. You will not be disappointed with Persian Nerve Essence, in fact, we give an

ABSOLUTE GUARANTEE

that six boxes will make a permanent cure or the money will be refunded. The proprietors, The Brown Export Co., 95-07 Liberty St., New York, N.Y. U. S. A. earnestly ask every sufferer to give Persian Nerve Essence a good fair trial at their risk. Don't delay, commence now—to-day—and be a well man. For sale by all chemists.

STANFORD PLAYS PUNAHOU TODAY, SAINTS SUNDAY

The Stanford baseball team is making its second local appearance this afternoon, against the fast Punahou Athletic Club amateurs, on Moiliili field. The game should be a hummer, for the visiting collegians have gingered up considerably, with three days practice, and a chance to get rid of their legs.

Punahou will probably work "Bill" Inman in the box, as Al Castle has been on the sick list for several days, and is not up to his best form. Halm, a left-hander, will twirl for Stanford, according to an announcement made by Manager Wilcox last night.

Tomorrow Stanford will go against the St. Louis Alumni, and there has been so much talk and speculation as to the relative merits of the two teams, that good weather will surely bring a banner crowd to Moiliili. Maple, Stanford's first string pitcher, will work against the Saints, while Barney Joy will do the twirling for the latter team, with Bushnell in reserve in case of necessity.

This afternoon's game is scheduled for 3:30 and the Sunday game for 3:15. Captain Stayton will umpire both contests from behind the bat, probably with Sergeant Ringland in the field.

Tomorrow afternoon a large delegation of sailors from the New Zealand will be on hand at the game, special arrangements having been made to begin their baseball education.

The line-up, and batting order for today's contest, as nearly as could be determined by the respective managers this morning, is as follows:

Stanford—Terry, ss; Argabrite, cf; Workman, lb; Dent, c; Maple, lf; Cass, 2b; Beeger, rf; Halm, c; McCloskey, 3b.
Punahou—W. Hoogs, 3b; C. Hoogs, cf; Rogers, lf; Nowell, 2b; Sumner, rf; Henshaw, 1b; Hitchcock, ss; Inman, p; Schuman, c.

H. WAGNER MAY GRAB ANOTHER RECORD

Hans Wagner is nearing another goal. Before the close of the season the Pirates' great shortstop will in all probability add one more wonderful record to the long string of wonderful performances that have been placed to his credit since he first began his major league career.

This time Wagner is on a new tack and the target at which he is aiming is his 3000 base hits. You get that? That's more than the entire Pittsburgh team makes in two whole seasons, and yet Wagner promises to hang up the record for himself in his 17th year as a National league player.

He needs fewer hits than he made last year to boost his total for all time to the mark. To be exact, he has batted safely 2327 times during his 16 sensational seasons with Louisville and Pittsburgh, so that only 173 more bingles are required during the 1913 season to send him over the line.

Also we may expect incidentally some healthy additions to the 1541 runs which Wagner already has scored and to the 636 bases which he has stolen.

Record of .300 Hitting. Not to be overlooked, either, is the possibility that Wagner will contribute another chapter to the remarkable story of unbroken .300 hitting that he has already written into the baseball records.

Even now he has shattered all precedent in that respect, for the Pirate captain stands as the only man in the history of the major leagues who ever batted .300 for 16 successive seasons.

Until last year a tie was the best that could be claimed for Wagner in this direction, for, although he had annual averages of .300 or better for 15 straight years, the performance had a parallel in the record of old "Cap" Anson.

The latter batted .300 for 15 consecutive seasons, from 1876 to 1890, inclusive, so that Wagner merely equalled a long-standing record when he closed in the select circle in 1911, but last year the big German left Anson and all others behind by striking .300 for the 16th consecutive time.

Eight Years a Champion. Wagner's batting record for 16 seasons in the National league, in eight of which he led all rivals, is as follows, showing a grand average of .343 of the entire time:

Year	Club	R.	H.	S.B.	Ave.
1897	Louisville	38	82	22	.344
1898	Louisville	80	180	24	.305
1899	Louisville	102	197	26	.295
1900	Pittsburgh	107	201	24	.300
1901	Pittsburgh	100	196	48	.352
1902	Pittsburgh	105	177	43	.329
1903	Pittsburgh	97	182	46	.355
1904	Pittsburgh	97	171	53	.349
1905	Pittsburgh	114	199	57	.363
1906	Pittsburgh	103	175	53	.339
1907	Pittsburgh	98	180	61	.320
1908	Pittsburgh	100	201	53	.354
1909	Pittsburgh	92	168	55	.353
1910	Pittsburgh	90	178	24	.320
1911	Pittsburgh	87	158	20	.324

George M'Bride is the Greatest of Shortstops, Says Griffith

WASHINGTON—"George M'Bride is today the greatest shortstop playing baseball. You can have your Wagners, Weavers and the pick of all of them, but for mine I will stick to the man we have." This is the high valuation placed upon his field leader by Manager Clark Griffith. "There are men playing the position who can hit more frequently than M'Bride, there may be some who can field as well, and there may be some who are as wise in baseball, but in the combination of all I think there is not one who is in the same class with George. M'Bride works for the team's good every minute of the day. When I first went to Washington I found certain people who seemed anxious to criticize the captain, but I was certainly happy when I found that the time were beginning to appreciate the value of the man whom I look upon as my right bower. Usually when M'Bride hits the hit means something, and a person would have to be pretty close to the club, attend the club meetings and follow every move on the field to know what a part the shortstop has played in lifting Washington from a joke to a real live factor in the American League. Give me M'Bride and the others can have their pick of the shortstops in both leagues."

GOOD BOXING FOR ARMY FANS

A good fight program will be staged at the Infantry amusement hall at Schofield Barracks on the night of July 18. With Carlin, of the First Field Artillery, and Charlie Reiley, the San Francisco scrapper, down for the main event over the 12-round route, and Harris and Stout matched for a semi-wind-up of ten rounds, the ring fans can look forward to some first-class milling.

Reiley was to have gone against Donovan, of the Second Infantry, but he is now out on a hike, and isn't available. The Carlin-Reiley mill looks good on paper, though, and leaves room for a match with Donovan against the winner.

Harris and Stout will make 133 pounds. The two prelims already arranged are Pennel, First Infantry, against Hile, Fourth Cavalry, 146 pounds, 6 rounds, and Dobbins vs. Hart, both of the Twenty-fifth Infantry, at 175 pounds over the 4-round route.

W. E. BAL, JR., WINNER OF BOWLING EVENT

[Special Star-Bulletin Correspondence] WAILUKU, July 11.—In the bowling tournament just completed at Puunene, William E. Bal Jr. made a total average of 178. This is three points ahead of W. S. Chillingworth's record of last year, who "won a leg" on the cup put up by the Puunene Athletic Association. Rev. L. B. Kaumehewa of Wailuku scored an average of 171 points, and hence won the second place in this year's tournament. The man that wins two tournaments will be the winner of the cup.

1912—Pittsburgh	91	181	26	.324
Totals	1541	2827	636	.343

Most men don't worry over trifles, but when his clothes don't fit, he certainly has a kick coming. This can be avoided by having them made by Geo. A. Martin for \$20 and up. Fort above Hotel. Don't cost any more than ready-made.

HUI NALUS MAKE CLEAN SWEEP OF SOUTHERN SWIMS

Los Angeles, Cal., July 12.
Star-Bulletin,
Honolulu.
Hui Nalu clean sweep.

RAWLINS.

The above cable message, received this morning, brings the welcome news that the Hawaiian swimmers have again been successful, this time at the big Southern California meet, held in Los Angeles yesterday. Coast water speeders were inclined to look on Duke Kahanamoku as a speed marvel, far ahead of any other swimmer in the Hawaiian Islands, but the present expedition has shown them that while Duke undoubtedly heads the list, there are nearly a dozen other men here who must be classed as top-notch swimmers.

Press dispatches of yesterday's meet state that Duke Kahanamoku clipped two-fifths of a second from his own mark in the 50-yard event, equaling the world's record of 23.35, held by A. Wickham, of Australia, and Kenneth Hussagh, of Chicago, the former in open-tidal water, and the latter in a bath with two turns.

Duke seems to be gaining speed with competition experience, and is probably leaving the platform and getting away faster than formerly. There was room for improvement in Duke's starting, which proved a big handicap to him when he first went to the mainland last year. Probably Duke didn't travel any faster through the water when under full headway than he did here last month, but gained the fractional second by being in the air when the pistol went.

HOW ABOUT THAT 'WORLD'S A. A. U.' RECORD OF DUKE'S?

How does the morning paper, which today credits Duke Kahanamoku with equaling the world's record of 23.35 seconds for the 50-yard swim, reconcile this announcement with its claim of a month back, that Duke established a new world's record when he covered the half century in 24 flat at the June 11 meet, and its hysterical howl of "knock" when the Star-Bulletin called attention to this glaring misstatement?

On June 12, on its front page under the heading "World's Records Broken," the morning paper gave the following figures:

"50-yard dash, straightaway, 24 seconds flat, Duke P. Kahanamoku. Previous world's record, 24 1-5, Duke P. Kahanamoku, August 12, 1911."

The following day, after the Star-Bulletin had published the correct figures, showing that Duke did not break the 50-yard record, the morning paper printed the following editorial:

Duke Kahanamoku on Wednesday broke three world's records, as correctly announced by the officers of the A. A. U. swimming meet, and as published yesterday in the Advertiser. Why so much trouble has been taken in an effort to show that such is not the case, and that "false claims" have been made which "may injure real records," is one of the things which only the fool killer might explain.

It is believed that the fool killer, after reading the sporting comment of the morning paper, decided that this morning's inconsistency was the last straw, and resigned his job for one less strenuous. The change of front of the morning paper in regard to those "world's A. A. U. records," is the biggest joke to date, and that's saying a good deal.

JUNIOR GAMES LOOK CLASSY

The usual double-header of the Oahu Junior League will take place tomorrow morning at Athletic Park by a game between the J. A. C. and the Portuguese and another between the Chinese A. U. and the Asahis.

Both of these games promise to be exciting, as they all have an international flavor, which always adds a good deal to a baseball contest. Manager Maruyama of the J. A. C. is working hard to get his boys in shape to win and will have one of his strongest lineups to face the Portuguese. Johnny Domingo is slated to do the twirling for the latter club, with faithful little Joseph at the receiving end.

The second game looks good from past performances. Both of the teams are strong, and ought to furnish the fans with a close contest. The C. A. U. has won five straight, and Manager Luke Kin is confident of another victory, with Aki pitching. The Asahis will use Sueda, the only Japanese southpaw in Hawaii, to do the slugging. Both of these lads are good pitchers, and to watch them opposing each other is a treat.

CHINESE BALL PLAYERS RETAIL MARVELS OF HAWAII TO AWED NATIVES OF NEW ENGLAND TOWN

Under a two-column head which reads, "Great Record Made By Hawaiian Team," the Worcester (Mass.) Telegram, of recent date, tells at length of the doings and purposes of the All-Chinese team. Some boosters, those Chinese lads.

This is what the New Englanders learned about Honolulu:

To prove to the people of the United States that the Chinese can do other things well beside running laundries and chop suey joints, the Chinese merchants of Honolulu sent a baseball team, composed entirely of Chinamen, to this country, known as the Chinese University ball team.

This crew of husky athletes stopped a day in Worcester last week on their Sherman's march through 27 states, and showed the inhabitants some real baseball when they took Holy Cross team into camp, 3 to 1, in the fastest game played on Fitton Field this year.

The team work of the Orientals was marvelous, causing the spectators to notice, in almost every inning of the game, the fielding, base running and batting of these almond-eyed diamond athletes being the best that any opposing team has shown at Holy Cross in many years.

When the fans left the grounds after the game, their respect for Chinamen had been given a big boost, and the purpose of those Chinese merchants in far off Hawaii had been accomplished in Worcester just the same as it has in every one of the 27 states that these strangers have played in.

The Telegram man was impressed by the wonderful work of the little band of Chinamen and visited them in their dressing room after the game. He expected to hear a lot of gibberish and was surprised to hear the players commenting on the game in just the same manner as he has often heard the Holy Cross boys discuss a game in their dressing room.

"Gee, but Pat Cawley can peg," said one, and another chirped in, "That double play of Pat's was a peach. Has any scout signed him up for any of the big show teams?"

The newspaper man's eyes started to bulge when he heard these strangers talking in real American base-

ball language and in talking with several members of the team, he found them well versed in baseball history and the doings of big league and college baseball teams. They follow the daily happenings closely and commented on the work of the Holy Cross team this year, almost every one on the team claiming that Holy Cross should be rated at least third for the college championship, with Yale at the pinnacle and Brown in second place.

Vernon L. Ayau, the energetic little shortstop, was in a happy mood, as by beating Holy Cross he said his team would gain a lot of prestige in New England. He hoped that next year he would be able to arrange games with Harvard, Yale, Princeton and Dartmouth.

Captain Ayau has been leader of the team about two weeks, being chosen in Baltimore. Chun Kai Yen, the second baseman, was captain before, but resigned because he thought the burden of leading the team was affecting his playing. Captain Ayau spoke of the excellent treatment the members of his team has received all through the United States and when asked to tell about his team, said: "The Chinese University team is composed of the best players from Oahu College, St. Louis University, College of Hawaii and McKinley High School of Honolulu."

"Athletics in our schools are nearly on the same plane with the best American colleges and universities. Paul and Lathrop Withington and Rex Hitchcock, the great Harvard athletes, and Charles Lyman on the West Point ball team, are products of Oahu College, so you can readily see the quality of the men who are in that institution."

Baseball History. "You seem surprised that we should be able to play the game we put up this afternoon. There would be no reason for it if you took a trip to Honolulu. Back lot baseball is almost as common as in the United States, the kids playing scrub and learning the rudiments of the game just like your boys do here."

"Baseball is almost 25 years old on the island of Hawaii, the game being

(Continued on Page Fourteen.)

OFFICIAL AVERAGES FOR FIRST SERIES SHOW WHY P. A. C. WON

Paresa's Team Leads in Batting and Fielding While Two of the Portuguese Players Top the Individual Batting List—Only Seven Men in .300 Class

Study of the official averages for the first half of the Oahu League season, prepared by Secretary Raposo, and printed below, brings out several good reasons for the win of the Portuguese Athletic Club. In team fielding and team batting the Portuguese are way ahead of all other teams in the league, and in individual batting two P. A. C. players top the list. There are only seven men in the .300 class, and the winners of the first half claim three of them.

The Portuguese, in seven games, made 18 errors, while the Hawaiians, second on the list, made 40 bobbles in 8 games. The P. A. C.'s are not what might be called a hard-hitting team, with an average of only .247, but they were so far ahead of the other clubs in sticking, and made so many less errors, that there is no cloud on their title to the championship of the first half.

Scott, the colored player of the Twenty-fifth Infantry, who is also a P. A. C. player, has the healthy, swatting average of .526 for five games. Bushnell, also a wearer of the dark blue, is second with .400, having played in every game of the season.
